Tru by Hilton is a revolutionary new midscale brand changing travel as we know it today. It was built from a belief that being cost conscious and having a great stay don't have to be mutually exclusive. Tru offers an experience unlike anything in its space, consistently delivered in a surprisingly fun, fresh and affordable way.

The Hive, a first floor experience that's more than a lobby—2,770 square feet of open space with unique ways for guests to engage with others or spend time alone—in one of four distinct zones for lounging, working, eating or playing.

A centrally located Command Center, a re-envisioned front desk featuring a social media wall with real-time content to foster engagement among guests, and a 24/7 market offering fun snacks and refreshments, single-serve wine and beer and healthy light meal options for purchase.

A complimentary "Build Your Own" breakfast consisting of a toppings bar with 30 sweet and savory items allowing guests to customize bagels, donuts, Greek yogurt, oatmeal and a variety of bases to satisfy their taste buds and cravings.
